

It's what you can't see...

that makes the
difference!

Even though you can't see your underlay,
it is the single most important factor when
it comes to the performance of your carpet.

 **DUNLOP**

Choose your comfort level.

No matter the level of comfort you need, Dunlop Springtred has you covered. With a range of 2 available products, you can be guaranteed to find the right level of comfort to suit both your budget and lifestyle.

Dunlop delivers.

There's no better name to entrust your great Australian dream to than Dunlop Underlay. Springtred has been specifically designed to be better for longer, meeting the AS 4288 standard for soft underlays.

More to offer.

Dunlop Springtred extends the life of your carpet by absorbing impact, ensuring that your home continues to look its very best. With outstanding thermal insulation properties, which can save you money by reducing heating bills, Springtred underlays are also suitable for all flooring types including heated slabs up to 40°C. And if it's peace and quiet you're after, a Dunlop Springtred underlay can reduce noise transfer for a relaxing and peaceful home.

The healthy choice.

Treated with Dunlop Fresh Living, an antimicrobial that promotes healthier living for our customers, Dunlop Springtred protects against dust mites, damaging bacteria, mould and mildew - significant triggers for asthma, hay fever and eczema. It also prevents odours and provides hygienic freshness helping create a healthier home environment for your entire family.

Leaving a lighter footprint.

Dunlop Underlay is committed to minimising our impact on the environment by helping to reduce landfill. You can be assured that you're contributing to this philosophy as all Dunlop Springtred underlays are manufactured from 90% recycled materials and are 100% recyclable. In addition, we run our own recycling program, Recycle by Dunlop, encouraging retailers to return any used underlay back to us. Due to this unwavering pledge to practical, measurable and sustainable environmental practices, we were presented a Banksia Sustainability Award, in the category of Waste Minimisation, for our Recycle by Dunlop program in 2013. This accolade recognises leadership, innovation and our commitment to environmentally responsible manufacturing processes.

Your home is a place of comfort. Dunlop Underlay recognises that this comfort also extends to factors that you can't see, such as the air quality of your home. As such, Springtred Carpet Underlay is Green Label accredited by the Carpet and Rug Institute in the USA, ensuring that it meets strict criteria on VOC emissions for superior indoor air quality for your entire family. After all, it's what you can't see, that makes the difference.

Ultimate (10mm)

takes it to another level, offering greater luxury and softness.

Extra (9mm)

provides extra density and thickness for improved underfoot comfort.

Dunlop Springtred Carpet Underlay helps ensure that your carpet retains its appearance for longer whilst continuing to offer a feeling of comfort and softness.

In fact, Dunlop has always made your comfort our business. From pillows and bedding to footwear and sofa cushioning, we have devoted ourselves to delivering outstanding comfort. It's what you'd expect from a company with over 45 years' experience in making Australia a more comfortable place to live.
