

Enjoy the peace of mind that comes with the protection of

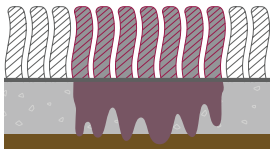

Dunlop StainShield protective barrier

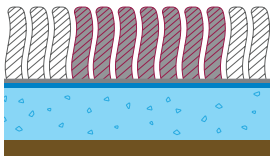

Dunlop Cloud 9 Underlay comes with the added assurance of Dunlop StainShield. This protective barrier minimises the occurrence of carpet staining by preventing liquid from settling on the subfloor, which ultimately resurfaces, causing a stain. Dunlop StainShield ensures spills from pets, children, dirty footwear and common household sources are kept above the underlay so that they can be easily removed from your floor.

Without a Dunlop StainShield protective barrier, spills will seep into the underlay.

Dunlop StainShield traps spills above the underlay, allowing you to easily clean them up.

Cloud 9 Features and Benefits:

- Makes carpet feel richer, thicker and more luxurious
- Extends the life of the carpet
- Improves carpet appearance and retention
- Acts as a thermal insulator, reducing your energy bills

EXCLUSIVE TO
Harvey Norman
THE CARPET & FLOORING SPECIALISTS

Create a sense of relaxation and everyday wellbeing in your home with Dunlop Cloud 9. Exclusive to Harvey Norman, this luxurious foam carpet underlay provides the ultimate in luxury and comfort underfoot, creating an even cosier carpet thanks to its winning combination of lightness and softness of touch. Whether it's for rest or play, Cloud 9 has been developed to create a perfect balance of comfort and support for your family and friends. And with three luxurious levels of comfort to choose from, you can be confident that no matter what you choose, your comfort is assured.

CUMULUS™

As a result of its high density and thickness, Cumulus is the perfect choice for those wanting luxurious softness and maximum performance from their carpet.

Thickness 11.0mm

STRATUS™

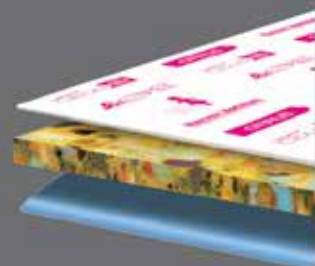

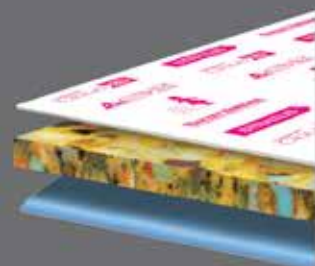

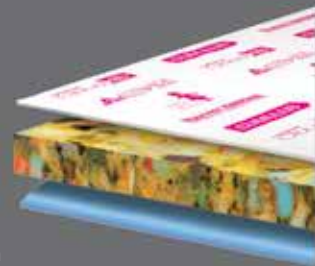

Our Stratus carpet underlay comes with additional density and thickness, providing you with increased comfort underfoot.

Thickness 9.0mm

CIRRUS™

The Cirrus carpet underlay offers you an excellent foundation for comfort and superior carpet performance in the home.

Thickness 8.0mm

Lighter on your feet.

Dunlop Cloud 9 has been proven to enhance the carpet performance and reduce pressure underfoot resulting in a more resilient and comfortable carpet throughout your home environment.

Softer for longer.

Combining Dunlop Cloud 9 underlay with your carpet ensures increased protection as well as the absorption of everyday impact. The result is a superior looking carpet that can withstand the activity of daily life.

Warmer & quieter.

Dunlop Cloud 9 offers outstanding heat and sound insulation, which reduces heating bills and noise transfer. Plus it's suitable for all floor types including heated slabs up to 40°C.

Healthier living.

Interior environments can play a major part in the overall health and wellbeing of your family, which is why Cloud 9 uses Dunlop Fresh Living. A proven antimicrobial, it controls dust mites and provides protection against odours, bacteria, mould, mildew and fungi which can trigger allergies such as hay fever, eczema and asthma attacks.

Lightening our footprint.

Dunlop Flooring is committed to reducing landfill and our impact on the environment. We recycle carpet underlay, and use recycled content within our underlay products. What's more, we are Australia's first underlay manufacturer to introduce our own recycling program, encouraging retailers to return their used underlay to us.

Guaranteed.

Cloud 9 is an Australian made product so its quality is guaranteed. It's also guaranteed by Dunlop for the life of your carpet and accredited by the Carpet and Rug Institute's Green Label program in the USA, which identifies products with superior indoor air quality. The Cloud 9 range also meets the requirements set by the Green Building Council of Australia's Green Star program, achieving maximum rating points for building interiors.

Proudly supporting

Breast
Cancer
Network
Australia

Offering even more support.

Breast cancer is the most common form of cancer for Australian women with 38 women a day being diagnosed with breast cancer. Breast Cancer Network Australia (BCNA) works to ensure that women diagnosed with breast cancer, and their families, receive the very best information, treatment, care and support possible. Dunlop Flooring and Harvey Norman are proud supporters of this worthy organisation, and to demonstrate our commitment we donate \$1 from every roll of Cloud 9 sold to BCNA helping them create softer landings.
